How Much Money Challenge 2C

Tyger, Captain and Frazer have 3 dimes, 3 nickels and 3 pennies which they share between them.

Each of them ends up with 3 coins but not the same amount of money.

Frazer ends up with the most money.

Captain ends up with a cent less than Frazer.

Tyger ends up with 13 cents less than Captain.

Can you work out how much each of them got, and which coins they ended up with?
