

Row of Coins Challenges 2C

Use the same coins (above) for both challenges.

CHALLENGE 1

Put the coins above in a row so that:

- the first two coins add up to 15 cents
- the last two coins add up to 11 cents
- the middle coin has the highest value
- the first and fourth coins have the same value

CHALLENGE 2

Put the coins above in a row so that:

- the middle coin has the lowest value
- the first two coins add up to 30 cents
- the last three coins add up to 21 cents
- the last coin is worth double the first coin
